<b>Office Action Summary</b>	<b>Application No.</b> 10/586,265	<b>Applicant(s)</b> KANEDA, MASAHIRO	
	<b>Examiner</b> Lynne Anderson	<b>Art Unit</b> 3761	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Driskell et al. (2005/0065489).

3. Driskell discloses a disposable diaper, as shown in figure 1, comprising a main body having a topsheet 14, a backsheet 12, and an absorber 16. A plurality of design prints are applied to the outer surface of the backsheet 12, as shown in figure 5A. The design prints have a width that is less than the width of the main body, but greater than 1/3 the width of the main body, as shown in figure 4B and described in paragraphs [0118-0119]. Since the design prints are applied to the outer surface of the diaper, they do not directly touch the body of the wearer. The design print includes a curved pattern, as shown in figure 5A.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3761

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Driskell et al. (2005/0065489) in view of Bauer et al. (5,934,470).

6. Driskell discloses all aspects of the claimed invention with the exception of the diapers being packaged together in a transparent package. Bauer teaches the packaging of a plurality of disposable diapers in a single package, as shown in figure 1. The package comprises a transparent sheet material to allow the consumer to identify the product through the packaging, as disclosed in column 5, lines 48-57. It would therefore be obvious to one of ordinary skill in the art at the time of invention to package the disposable diapers of Driskell in a transparent package, as taught by Bauer, to allow the consumer to identify the product through the packaging.

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents 6,297,424; 5,389,093; and 4,022,211 teach diapers having design prints. U.S. Patents 6,601,705 and 6,491,165 teach transparent packaging for diapers.
